Only eligible expenses will apply toward the deductible and out-of-pocket maximum. Charges for non-covered services and amounts exceeding the maximum allowable charge will not be counted. **For PPO Plans**, no single family member will be subject to a deductible or out-of-pocket maximum greater than the “employee only” amount. Once two or more family members (depending on premium level) have met the total deductible and/or out-of-pocket maximum, it will be met by all covered family members. **For CDHP Plans**, the out-of-pocket maximum amount can be met by one or more persons.

[1] Subject to maximum allowable charge (MAC). The MAC is the most a plan will pay for a service from an in-network provider. For non-emergent care from an out-of-network provider who charges more than the MAC, you will pay the copay or coinsurance PLUS the difference between MAC and actual charge.

[2] The following behavioral health services are treated as “inpatient” for the purpose of determining member cost-sharing: residential treatment, partial hospitalization and intensive outpatient therapy. For certain procedures, such as applied behavioral analysis, electroconvulsive therapy, transcranial magnetic stimulation and psychological testing, prior authorization (PA) is required.

[3] Applies to certain antihypertensives for coronary artery disease (CAD) and congestive heart failure (CHF); oral diabetic medications, insulin and diabetic supplies; statins; medications for asthma, COPD (emphysema and chronic bronchitis) and depression.

[4] Prior authorization (PA) required. When using out-of-network providers, benefits for medically necessary services will be reduced by half if PA is required but not obtained, subject to the maximum allowable charge. If services are not medically necessary, no benefits will be provided. (For DME, PA only applies to more expensive items.)
